VERITAS Planning Sdn Bhd was established in 2008 as a member of the VERITAS Design Group, and has since experienced rapid growth, expanding into all areas of the planning field. Today, VERITAS Planning continues to pursue a dynamic approach to a wide range of planning services founded on innovation and the principles of professionalism.

VERITAS Planning has been honored over the years for award-winning planning works commissioned for major international organizations and public listed companies, both within Malaysia and overseas. Completed projects of the firm have been published widely in the local media and the Principals have presented their work and ideas at numerous academic and professional forums.

As part of the VERITAS Design Group, VERITAS Planning has access to the larger resources of its parent company, either to meet critical project milestones or for the purpose of providing integrated professional design services. This resource includes over 380 other members of the group within its 3 Malaysian offices (Kuala Lumpur, Penang and Johor) and 6 international offices.

VERITAS Planning has adopted a flexible and adaptable approach to handling planning projects, tailored to respond to the specific needs of each particular project and the decision-making process of the Client. At VERITAS Planning, the quality and consistency of professional service on each project takes precedence over theoretical design goals. Consequently, the firm's work is marked not by a fixed stylistic signature, but rather by a consistent approach inspired by the principles of good design, environmental concern and contextual integrity.
