Sepang, Selangor

Inside Front Cover

DOHA AIRPORT CATERING BUILDING
Doha, Qatar

Aviation and aviation-related project types present exciting design opportunities to express the spirit of travel and technology. Airports have become more than just transit facilities, evolving into retail, hospitality, food and beverage and entertainment complexes.

This is also an area of expertise that VERITAS has established over 30+ years with completed and proposed aviation and aviation-related projects spanning across the Asian continent.

These include passenger terminals and lounges, airline catering, administrative offices, airport cargo and customs/immigration/quarantine buildings for major airlines and aviation-support operators.
