1.0

CLASSES OF USE OF LAND AND BUILDINGS 2024 (CULB2024)

1.0 CLASSES OF USE OF LAND AND BUILDINGS 2024 (CULB2024)

DRAFT KUALA LUMPUR LOCAL PLAN 2040

1-1

ADOPTION OF CLASSES OF USE OF LAND AND BUILDINGS (CULB 2024)

This document is referred as **Volume 1: Part 3, Classes of Use of Land and Buildings 2024 (CULB2024)**. It need to be referred together with Volume 1: Part 1, Development Control and Volume 1: Part 2, Land Use Zoning and Intensity Maps (KLDGP2024).

It will be gazetted together with the Draft Kuala Lumpur Local Plan 2040 (KLLP2040) in accordance with the provisions of the preparation of the Kuala Lumpur Local Plan under Section 13 of the Federal Territories (Planning) Act 1982 (Act 267) and will come into effect upon the gazettelement of Draft KLLP2040.

This document is to complement the planning permission in respect of a development under Section 19 of the Federal Territory (Planning) Act 1982 (Act 267). Any development or activity to be carried out shall comply with the development plan or development order granted in respect of the designated land use zone and intensity. The development shall be in accordance with the provisions outlined in the CULB2024.

However, CULB2024 is not subject to Section 22 (3)(a), Act 267 which refers to development with limited period whereas Draft KLLP2040 only refer to development of permanent buildings or lands. Nevertheless, this adoption needs to be supported with suitable guidelines.

If an application for planning permission in respect of a development relates to land and building uses not specified or specified in the 'Not Permitted' column of CULB2024, the Mayor may, with the approval of the Minister, grant planning permission if the development is deemed to be in the interest of the public.

Figure 1.1:
Volume 1: Part 3 (CULB2024) of Draft KLLP2040

APPLICATIONS FOR CLASSES OF USE OF LAND AND BUILDINGS 2024 (CULB2024)

Development control for each land use zone is set through the CULB2024 Schedule which identifies the suitable or related types of activities as well as the planning conditions that have been set to support the main use of each land use zone.

CULB2024 is divided into two (2) main categories which are as follows:

1. General Classes of Use of Land and Buildings (General CULB); and
2. Specific Classes of Use of Land and Buildings (Specific CULB).

1.2.1 Applications of Specific Classes of Use of Land and Buildings (Specific CULB)

Specific CULB is a guide to control development at specific areas to specify the permissible activities to be carried out with conditions. The objectives of Specific CULB are as follows:

1. Allow suitable activities that are not permissible in General CULB to be considered;
2. Enable existing suitable activities on site to operate without causing issues to the community and its surroundings;
3. Ensure building conversion activities will not significantly affect the building typology and to control development capacity; and
4. Establish control for an area with new forms of activity because current existing activity are no longer suitable.

Specific CULB comprises two (2) types which are as follows:

1. Specific Area Classes of Use of Land and Buildings (Specific Area CULB); and
2. Specific Village Classes of Use of Land and Buildings (Specific Village CULB).

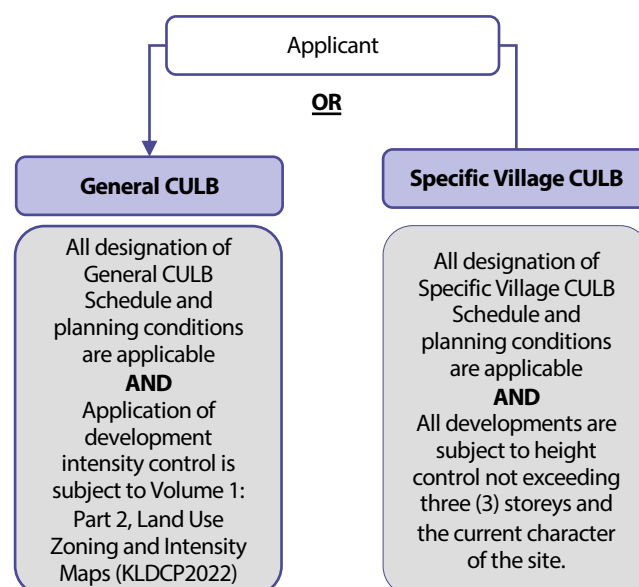

Specific CULB also adopts the form of activity control based on **Permissible**, **Permissible with Conditions** and **Not Permissible** in details according to respective planning areas.

The development control for Specific CULB can be referred through Matrix Schedule of Specific Area CULB as shown in Table 3.4 and Matrix Schedule of Specific Village CULB as shown in Table 3.5. The detailed table with specific permissible classes are also included in this document.

Any development application in the area which is listed as Specific CULB is subject to activity control that has been designated.

On the other hand, in Specific Village CULB, the applicants or landowners may choose the use of General CULB or Specific CULB to ensure dynamic use of space and development can be implemented. Nevertheless, they can choose only one CULB, either General CULB or Specific Village CULB.

Figure 1.2:
Selection Types of Specific Village CULB Category

If the applicant has chosen to use General CULB, then the applicant must comply with the designation of the class of use and planning conditions in General CULB. References to the class and conditions of Specific CULB are not applicable and vice versa.

2.0

CLASSIFICATION OF MAIN LAND USE AND LAND USE ZONE

2.0 CLASSIFICATION OF MAIN LAND USE AND LAND USE ZONE

DRAFT KUALA LUMPUR LOCAL PLAN 2040

Classification of land use refers to ten (10) main land use which are grouped from 25 land use zone. Meanwhile, the interpretation of land use zone generally refers to typology, intensity and hierarchy of development for each land plot. Class of land use and buildings is a detailed development control mechanism by referring to the main activities for each land use zone that are significant and compatible with Kuala Lumpur's current activities.

The application for planning approval must adhere to the land use zone and CULB2024. The existing usage is permissible until a new development application is granted or until the presence of planning needs. In general, the classification of main land use, land use zone and use class and building are specified in Table 2.1.

DEFINITION OF LAND USE ZONES

Characteristics of 25 designated land use zones are determined by their functions and main uses. The following are detailed definitions of land use zone as shown in Table 2.2.

Land use zones, planning control layer and designated incentives area are shown on the Land Use Zone Map for each plot of land in Kuala Lumpur. **Volume 1: Part 2, Land Use Zone and Intensity Map (KLDCP2024)** according to the index provided for more detailed reference.

Table 2.2: Interpretation of Land Use Zone

Land Use Zone	Abbreviation	Definition
A. Commercial		
1. City Centre Commercial	CCC	Refers to the highest hierarchy of commercial land use zones that serves as a centre for financial, prime commercial, services and main employment .
2. Major Commercial	MC	Refers to the commercial land use zone that serves as a major commercial centre that supports the City Centre Commercial Land Use Zone (CCC).
3. Commercial	C	Refers to commercial areas that are generally located on the main streets and at the centre of major neighbourhoods .
4. Local Commercial	LC	Refers to commercial land use zones that serves as local service centres in residential areas.
A. Mixed Development		
5. Mixed Development	MX	Refers to a mixed land use zone that allows the commercial components to support the basic use of residing component in a development. Residing components, including residential units, quarters and serviced apartments, shall not be less than 60 percent of the total floor area.
A. Industrial		
6. Industry	IP	Refers to a land use zone for manufacturing, production, services, research and related activities . Commercial activities that support major industrial activities such as offices and promotional spaces not exceeding 20 percent of the total floor area are permissible .
7. Mixed Industry	MXI	Refers to an industrial land use zone that allows commercial activities wherein commercial activities shall not exceed 50 percent of the total floor area. Residential activities except quarters and hostel as well as residential characterised commercial activities especially service apartment, SOHO and hotels are not permissible .
8. Technology Park	TP	Refers to a land use zone for high-tech industries, mainly focuses on research and development (R&D) activities as well as other supporting activities that are regulated by agencies appointed by the government. Commercial activities and residing in Land Use Zone of Technology Park not exceeding 10 percent of the total floor area is permissible.
D. Residential		
9. Residential 1	R1	Refers to a low-intensity residential zone, generally consisting of landed residential with single ownerships , such as detached houses, semi-detached houses and terrace houses not exceeding 3 storeys including landed strata with control height of 4 levels based on guidelines provision. The existing residential building typology must be retained and harmonised with adjacent developments. Any changes in the building typology are permissible and considerable if it is compatible with the surrounding development planning and does not affect the capacity of infrastructure and public facilities capacity.

Table 2.2:
Interpretation of Land Use Zone (continued)

Land Use Zone	Abbreviation	Definition
D. Residential		
10. Residential 2	R2	Refers to a medium-intensity residential zone , generally consisting of multi-storey dwellings, multi-storey strata and town houses with a base plot ratio of up to 1:2.5 .
11. Residential 3	R3	Refers to a high-intensity residential zone , generally consisting of multi-storey dwellings with a base plot ratio of up to 1:4.0 .
12. Residential 4	R4	Refers to a specific residential land use zone for affordable housing, including public housing . Generally the base plot ratio for R4 is up to 1:6.0 with multi-storey residential typology.
13. Traditional Village 1	TV1	Refers to land use zone in a part of Kampung Padang Balang only that preserves the village characteristic and setting consisting of detached or semi-detached houses not exceeding 3 storeys with controlled of Traditional Malay House design .
14. Traditional Village 2	TV2	Refers to the residential land use zone in a village setting areas with various residential characteristics for part of villages within Gombak Malay Reserve Area (MRA) only , namely a part of Kampung Padang Balang, a part of Kampung Sungai Mulia, Kampung Banda Dalam, a part of Kampung Sungai Merali, a part of Kampung Puah Asal and a part of Kampung Chubadak Hulu.
15. Established Residential	EH	Refers to the land use zone of a well-planned landed residential area with low intensity , consisting of detached, semi-detached and terrace houses, of good quality and condition with complete provision of facilities and infrastructure that will not experience drastic typological changes during the development plan period.
E. Institutional		
16. Institution	INT	Refers to land use zone designated for the uses of cultural and civic activities, as well as government and semi-government facilities such as palaces, museums, galleries or memorials, courts, cultural centres, libraries, universities, colleges, training centres, research centres, military camps, security agency headquarters, care and rehabilitation centres, homeless transit centres, and other government-related offices as well as allow residential development in accordance with any requirement by the government as well as subject to planning suitability including socioeconomic benefits. These institutional activities are usually owned or facilitated by the government, statutory bodies or non-governmental bodies .
F. Community Facilities		
17. Public Facilities	PF1	Refers to land use zone designated for educational, health, safety and emergency, and well-being facilities for the general public or local communities as well as for other supporting activities (as ancillary uses) that require such facilities. Provision of PF1 facilities is based on catchment areas and owned by a government or statutory body as well as could be managed by private parties.
18. Private Facilities	PF2	Refers to the land use zone designated generally in the development scheme's layout plan for the provision of community facilities and facilities related to private education. Private entities can own, operate, and manage these facilities.
G. Cemetery and Mortuary Management		
19. Cemeteries and Mortuary Management	CE	Refers to the land use zone designated for the management of Muslim and non-Muslim burials . The cemetery area includes Muslim, Chinese, Hindu, Christian and other cemeteries.

Table 2.2:
Interpretation of Land Use Zone (continued)

Use of Land Zone	Abbreviation	Definition
H. Open Space		
20. Public Open Space 1	OS1	Refers to the land use zone of an open space for recreational activities such as leisure, games, sports or cultural activities . OS1 includes recreational parks and open spaces surrendered by private development scheme or government bodies for public use as open space managed or maintained by KLCH or other relevant entities for public usage. Activities or building's structure that support open space activities such as management office, food and beverage as well as facilities shall not exceed 30 percents from total open space area is permissible and subject to suitability and area of the plot without affected the function of particular open space.
20. Public Open Space 2	OS2	Refers to the land use zone of an open space that serves various purposes such as nature recreational activities, buffer zone, suitable roundabout or traffic island, linear green area, including development excess areas that is used as green areas such as slopes, and small land spaces in between developments including those surrender by private parties. OS2 can be managed or maintained by KLCH or other relevant entities.
20. Private Open Space	OS3	Refers to the land use zone of open space for recreational activities such as park, playground, recreation ground, sports ground, golf course or cultural activities that are privately owned or privately managed , wherein the public has limited access except with authorisation of usage. Development for the purpose of socio-economic benefits (commercial or residential component) for part of the site is subject to suitability involving aspects of site size, location, environment, and capacity of an area without affecting its original functionality except for sites that exist due to planning requirements.
20. Forest Reserve	FR	Refers to the land use zone of a gazetted forest reserve and forested areas managed or maintained by the relevant public authority. Activities or structure such as gazebo, kiosk and ancillary facilities need to be designed with suitable scale without affecting flora and fauna.
I. Infrastructure and Utilities		
24. Infrastructure and Utilities	IU	Refers to the land use and building intended for the provision of infrastructure and utilities such as water supply, energy supply (electricity, gas, cooling systems and others), sewerage, telecommunications, drainage (irrigations, rivers, lakes and detention or retention pond), solid waste disposal and other related infrastructure and utilities.
J. Transportation		
24. Transportation	TR	Refers to the land use zone designated for the provision of transportation facilities including public transportation terminals, public transportation stations, Park and Ride facilities, parking facilities, transportation depots, road reserves, rail lines and other related facilities permissible to support the transportation infrastructure system and services.

Table 2.3: Planning Control Layer, Public Open Space within Private Development Scheme (OS4)

Planning Control Layer	Abbreviation	Definition
Open Space		
24. *Public Open Space within Private Development Scheme	OS4	A multipurpose public open space located at ground level or podium and accessible to the public. OS4 is only shown as a planning control layer in land use zone map . OS4 is surrendered to KLCH through strata parcels or accessory parcels or specified through express conditions in the land title deed or determined through an undertaking agreement. The area of OS4 is not counted in the calculation of land use zones but is considered in the preparation of open space requirements.

Note: **Public Open Space within Private Development Scheme (OS4)** is a planning control layer shown as display only in the Land Use and Development Intensity Zone Map (KLDCP2024).

3.0

CATEGORIES OF CLASSES OF USE OF LAND AND BUILDINGS 2024 (CULB2024)

3.0 CATEGORIES OF CLASSES OF USE OF LAND AND BUILDINGS 2024 (CULB2024)

DRAFT KUALA LUMPUR LOCAL PLAN 2040

CULB2024 classifies similar activities and are grouped together according to the category of use of land and building. Nine (9) main classes of use are identified and 67 classes of use of land and building that are Permissible, Permissible with Conditions or Not Permissible for land and buildings in each land use zones.

Interpretation of the terms used are as shown in the Table 3.1 and categories of CULB2024 as shown in Table 3.2.

Table 3.1:
Interpretation of the Three Terms of Use

Terms of Use	Descriptions
Permissible (P)	Use of land and buildings including activities that are PERMISSIBLE in a land use zone.
Permissible with Conditions (PC)	Use of land and buildings including activities that are PERMISSIBLE WITH CONDITIONS imposed on a specific plots of land in the land use zone. KLCH has the authority to refuse planning permission if the application does not comply with the conditions stipulated in the Classes of Use of Land and Building Schedule for the land use zone.
Not Permissible (NP)	Use of land and buildings including activities that are NOT PERMISSIBLE in a land use zone.

3-1

USER GUIDE FOR CLASSES OF USE OF LAND AND BUILDINGS 2024 (CULB2024)

This document specifies three (3) types of CULB which comprise General CULB, Specific Area CULB and Specific Village CULB. General CULB addresses 25 land use zones while Specific Area CULB addresses nine (9) areas and Specific Village CULB addresses 25 villages. Details of each CULB are shown in Table 3.3, 3.4 and 3.5.

User guide for CULB2024 involves four (4) steps as shown in Figure 3.1.

Figure 3.1:
User Guide for Classes of Use of Land and Buildings 2024 (CULB2024)

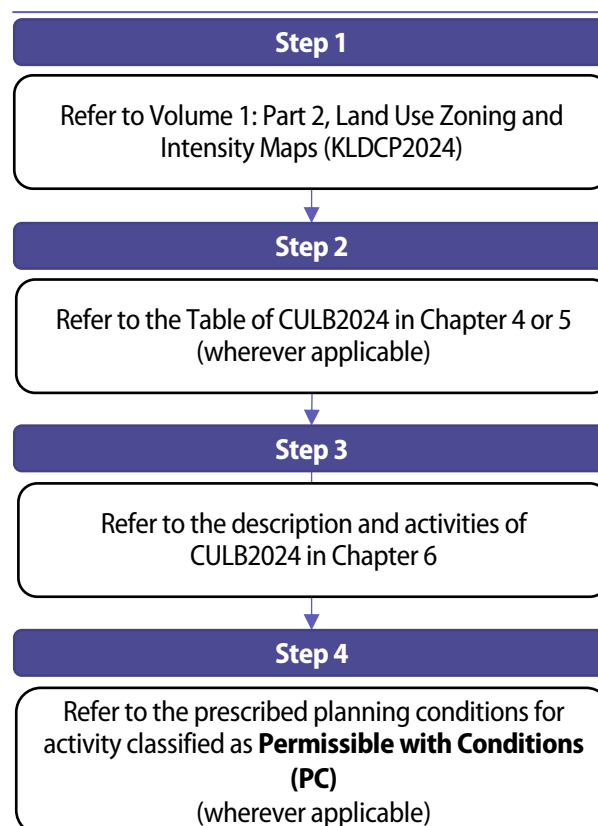

Table 3.2: Categories of Classes of Use of Land and Buildings 2024 (CULB2024)

GENERAL CLASSES OF USE OF LAND AND BUILDINGS TABLE (GENERAL CULB)

4.0 GENERAL CLASSES OF USE OF LAND AND BUILDINGS TABLE (GENERAL CULB)

DRAFT KUALA LUMPUR LOCAL PLAN 2040

The development control for each land use zone is designated through General CULB which identifies and outlines the relevant types of activities that are suitable for and not contradicting the meaning of intended land use zone. Permissible activities with condition outlines suitable control in terms of location, capacity, accessibility and social implication as well as surrounding.

There are 25 tables of General CULB according to land use zone which outline the details of activities that are Permissible, Permissible with Conditions and Not Permissible as well as imposed planning conditions.

BRIEF INFO

SPECIFIC CLASS OF USE OF LAND AND BUILDINGS (SPECIFIC CULB)

5.0 SPECIFIC CLASS OF USE OF LAND AND BUILDINGS (SPECIFIC CULB)

DRAFT KUALA LUMPUR LOCAL PLAN 2040

5-1

SPECIFIC CLASS OF USE OF LAND AND BUILDINGS (SPECIFIC CULB)

Specific Class of Use of Land and Buildings are divided into two (2) which are Special Area CULB and Special Village CULB.

Specific Area CULB is applicable to the following nine (9) areas to outline development controls and activities in accordance with current development trends, character and development typology of the area.

The needs for the Specific Area CULB are to:

1. Allow activities that are not permissible in General CULB for areas that have specific controls;
2. Control the patterns and trends of activities on sites that must be adapted to current planning requirements; and
3. Control the development of identified areas so that it does not cause significant changes in building typology through the establishment of building height controls in relevant areas.

Twenty-five (25) villages have been identified in Specific Village CULB. Specific Village CULB is designed to coordinate development control without compromising the preservation of development character in these areas by taking into consideration current development trends.

BRIEF INFO

CATEGORIES OF SPECIFIC CLASS OF USE OF LAND AND BUILDINGS (SPECIFIC CULB) DRAFT KLLP2040

9 Specific Area CULB

25 Specific Village CULB

The needs for the Specific Village CULB are to :

1. Allow cottage industry and home-based industry activities to operate in residential areas characterised by villages and self-sufficiency concepts.
2. Allow cottage industry and home-based industry activities to serve as an initiative in reducing the operating costs for informal sector traders operating from home without the need to pay for commercial unit rental costs;
3. Control the attractive character of the village and its strategic location in Kuala Lumpur which may be potentially developed as tourist accommodation with a homestay concept;
4. Increasing the socioeconomic status of the local community through activities of the informal sector; and
5. Establish the height control for development and activities shall not exceed (3) storeys.

Location: Jalan Ledang

Specific Area CULB in Jalan Ledang.

Location: Kampong Bharu

Entry statement to Kampong Bharu.

SPECIFIC AREA CLASS OF USE OF LAND AND BUILDINGS (SPECIFIC AREA CULB)

A total of nine (9) areas have been identified to adopt the Special Area CULB as follows:

1. Jalan Maarof – Lorong Maarof;
2. Jalan Gelenggang – Lorong Dungun;
3. Pusat Komuniti Bukit Damansara;
4. Bukit Persekutuan;
5. Jalan Ledang;
6. Jalan Dato' Abu Bakar;
7. Taman Tugu;
8. Jalan Cenderasari; and
9. Jalan Maran – Lorong Maran.

BRIEF INFO**SELECTION CRITERIA FOR AREA SPECIAL USE OF LAND AND BUILDING**

- Current function and character of the area
- Characteristics and types of current activities being carried out
- Local community needs
- Development potential and trends

Location: Jalan Ledang

PEMADAM Headquarters' building in Jalan Ledang.

Location: Jalan Cenderasari

Klinik Kesihatan Tanglin' building.

Location: Jalan Gelenggang

Rows of homes along Jalan Gelenggang.

Location: Jalan Maarof

A residential building that has been turned into a boutique.

Location: Jalan Dato' Abu Bakar

Residential and commercial buildings along Jalan Dato' Abu Bakar.

Table 5.1: Jalan Maarof – Lorong Maarof

Area Information	Area Plan
<p>Draft KLLP2040 Land Use Zone: Commercial (C)</p>	
<p>Location: Jalan Maarof (Lot 40381 to Lot 201) and part of Lorong Maarof (Lot 14936 to Lot 255).</p>	
<p>Justification for Specific Area CULB : Residential buildings that have been converted to carry out limited commercial activities along Jalan Maarof. The character of the area has changed with a main road and a road dispersing traffic from the Mid Valley City area as well as making it less suitable to be maintained for residential activities.</p>	
<p>Current Activities:</p> <ul style="list-style-type: none"> • Residence • Showroom • Boutique • Restaurant • Hotel 	
<p>Height Control:</p> <ul style="list-style-type: none"> • Not more than 3 storeys • No more than 5 storeys per Lot 40381, 40382, 40385, 38481, 38483, 38485, 38486, 38487, 38488, 38489, 38490, 38491, 38492, 38493, 38494, 38495, 38496, 38497, 38498, 38499, 38500, 38501, 38502, 38503, 38504, 38505, 38506, 38507, 38508, 38509, 38510, 38511, 38512 38484 and 481772. 	
<p>Plot Ratio Control:</p> <ul style="list-style-type: none"> • Plot Ratio 1:2.0 for Lot 201, 367, 366, 198, 420 and 20002. 	
<p>Note:</p> <ul style="list-style-type: none"> • To maintain character and lot size, amalgamation of lots is not permissible.

SPECIFIC VILLAGE CLASS OF USE OF LAND AND BUILDINGS (SPECIFIC VILLAGE CULB)

Specific Village CULB aims to ensure the preservation of the village character as well as the inclusiveness of the community living in the village within Kuala Lumpur. It also provides space for the coordination of informal and livelihood activities that are suitable by taking into consideration its existing operations.

Flexibility is given to landowners or applicants to use Specific Village CULB or General CULB for land lot development. Applicants or landowners can choose only one of these two CULB options.

If the applicant chooses the Specific Village CULB, the guidance of development compliance is subject to the control of building height not exceeding three (3) storeys in accordance with the character of the area that is characteristic of the village.

Landowners who have chosen the use of Special Village CULB cannot prevent applicants or adjacent landowners from developing their land lot based on the designation of General CULB.

In line with the desire to consider planning that is appropriate to the surrounding area, the use of Village Special CULB for activities related to Class C (Industry) is allowed on the condition that appropriate steps must be taken to obtain the views of the bordering or surrounding residents before planning approval is granted.

There are 25 villages listed for the Specific Village Class of Use of Land and Buildings which are namely as villages in the Malay Reserve Area, Non-Malay Reserve Villages and New Villages.

BRIEF INFO

BREAKDOWN OF TYPE OF VILLAGE, DRAFT KLLP2040

Villages in the Malay Reserve Area (MRV)

352.83 hectares

Non-Malay Reserve Villages

261.04 hectares

New Villages

291.33 hectares

Table 5.10:

Details and Types of Villages Considered in the Malay Reserve Area Specific Village CULB (MRV)

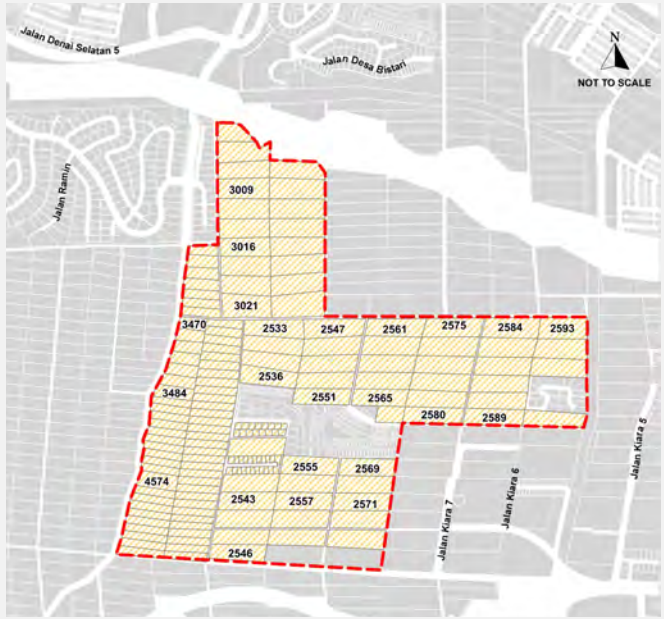

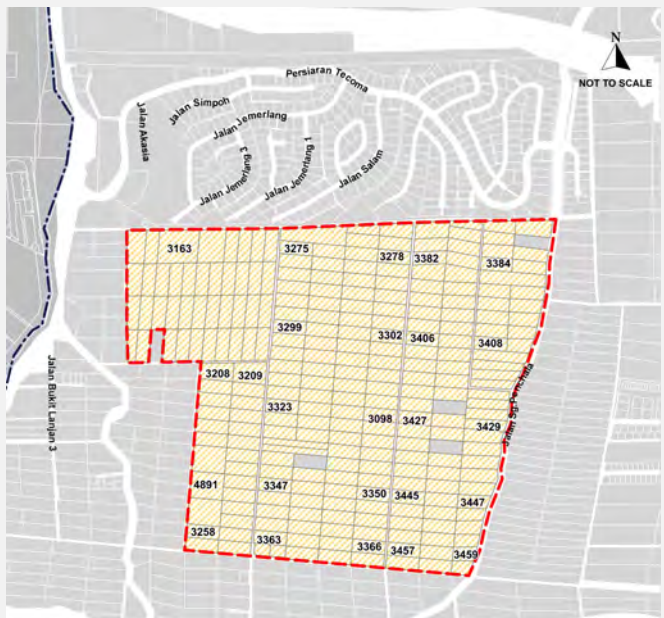

Type of Village	Village	Area (Hectares)
Villages in the Malay Reserve Area (MRV) <ul style="list-style-type: none"> The Malay Reserve Area (MRV) was created under the Malay Reservation Enactment 1913 and the Land Enactment of 1987. The objective of the enactment of this law is to ensure that Malays can own lands, especially in urban areas and a provision in the said enactment is that MRV cannot, either through sale or lease, be transferred to non-Malays. 	MRV Segambut	
	1. Kampung Segambut	115.97
	2. Kampung Palimbayan	109.35
	3. Kampung Bukit Lanjan	11.70
	Total	237.02
	MRV Penchala	
	4. Kampung Sungai Penchala	106.13
	Total	106.13
	MRV Selayang Lama	
	5. Kampung Selayang Lama	9.68
	Total	9.68
	TOTAL	352.83

Table 5.11:
Details and Types of Villages Considered in the Special CULB for Non-Malay Reserve Villages

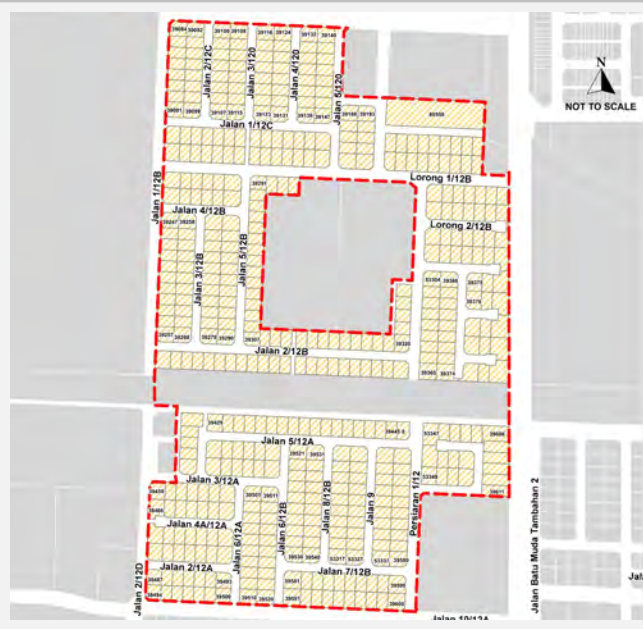

Type of Village	Village	Area (Hectares)
Non-Malay Reserve Villages <ul style="list-style-type: none"> Exist unplanned and organic. It is a settlement area that has been inherited by the Malays for several generations and has prominent village characteristics. Villages in the city accommodate the number of residents whose majority are involved in municipal activities and have a physical condition that is less organized and often exhibits a crowded condition (slum). The pattern of this village is linear or centralize. 	Village	
	6. Kampung Pandan Melayu	8.86
	7. Kampung Pandan India	8.59
	8. Kampung Batu Muda	28.05
	9. Kampung Seri Batu	8.40

Class B4 Hostel	A place to stay or room or dormitory provided at a lower rental rate or accommodation fee for the short and medium terms.	1. Hostel
		2. Other related Hostel activities
Class B5 Residential Care Home	Space or premises for caring of people with disabilities, the elderly, children and other groups who require close care, attention and supervision.	1. Welfare Home
		2. Orphanage
		3. Disability Care Home or Centre
		4. Elderly Care Home
		5. Other related Residential Care Home activities
Class B6 Home-based Business	A residential unit that allows part of the space to be used for a small-scale business including office space. Not more than five employees which does not cause disturbance to the surrounding residents and does not change the housing unit.	1. Provision of Food and Beverages
		2. Tailoring and Dressmaking Services
		3. Child/Elderly/Disabled Care Services (according to the ratio of carers to residents set by the Department of Social Welfare)
		4. Online Business
		5. Private Office
		6. Other related Home-based Business activities

Table 6.5: Classes of Use of Land and Building for Industrial (C)

(1) Class of Use	(2) Description	(3) Activity
Class C1 Packaging, Storage and Distribution	Buildings or premises related to the storage and distribution of goods as well as products.	1. Storage, Packaging and Distribution of Goods, Raw Materials and Equipment
		2. Non-operational Vehicle Storage
		3. Other related Packaging, Storage and Distribution activities
Class C2 Used Goods Collection Centre	Storage, sale, refurbishment or processing of used goods that are no longer required for use in their original form or recycled.	1. Recycling of Automotive Goods
		2. Recycling of Paper/Plastic/Glass/Metal
		3. Other related recycling activities not listed above
Class C3 Petrol Station and Vehicle Maintenance	Places or premises for refueling, maintaining, and selling spare parts for motor vehicles.	1. Sale of Petrol and Gas
		2. Electrical Vehicle Charger
		3. Vehicle Wash
		4. Convenience Store (sale of daily necessities)
		5. Sale of Food and Beverages
		6. Servicing Motor Vehicle
		7. Sale of Car Accessories and Auto Tools
		8. Other related Petrol Station and Vehicle Maintenance activities
Class C4 Engineering Works	Place or premises providing engineering services.	1. Manufacture of Metal
		2. Welding Work
		3. Manufacture of Building Materials
		4. Electrical Wiring
		5. Communication System Manufacturing
		6. Machinery Repair Services
		7. Signboard Manufacturing
		8. Other related Engineering Works activities
Class C5 Vehicle Service and Repair	Buildings or premises providing services for the maintenance and repair of motor vehicles, including the sale of spare parts for maintenance and repair needs.	1. Service and repair of Motorcycles/Cars/Lorries/Buses/Vans
		2. Sale of Spare Parts
		3. Car Wash and Valeting Services
		4. Heavy Machinery Service and Repair
		5. Other related Vehicle Service and Repair activities
Class C6 Manufacturing and Processing	Buildings or premises that involve production, manufacture or installation of goods manually or using machines on a medium scale except for cement and concrete manufacturing and processing activities.	1. Wood
		2. Bricks
		3. Tiles
		4. Manufacture of Food and Drinks
		5. Other related Manufacturing and Processing activities

(1) Class of Use	(2) Description	(3) Activity
Class C7 Printing and Publishing	Buildings or premises processing or producing printed materials in inked type and printing machines or in a similar way on a large scale.	1. Plan Printing (Digital Printing)
		2. Plan Printing (Conventional Printing)
		3. Printing of Books, Magazines and Binding In Large Quantities (Digital Or Conventional Printing)
		4. Newspaper Printing and Publishing
		5. Printing of Banners and other Advertising Materials (excluding shop signs)
		6. Other related Printing and Publishing activities Note: i. Digital printing produces a digital image on a physical surface. It is generally used to carry out direct printing and for adaptation of print media; and ii. Conventional printing is a process for reproducing text and images, usually using ink and a printing press. It involves large-scale industrial processes and is an important part of the printing and publishing process.
Class C8 Technology, Research and Development	Buildings or premises based on ICT or scientific research activities for research or making new products and improving existing products as well as manufacturing processes that use high technology.	1. ICT Lab
		2. Biotechnology
		3. Nanotechnology
		4. Information Technology and Multimedia
		5. Science Park
		6. Research Centre
Class C9 Batching Plant	Sites or premises carried out for large-scale cement or concrete processing activities.	7. Other Technology, Research and Development activities
		1. Concrete Mixing Plant Activities that Operate within the Industrial Zone Area and Outside the Industrial Zone Area (Project Site)
Class C10 Cottage Industry	A cottage industry operating in an individual's home to produce goods and services on a small scale, rather than operating in a special place in a factory.	2. Concrete Mixing Plant Operating For Own Project Use or Sale of Cement to Other Operators (Commercially)
		1. Processing and Production of Food and Drink based products
		2. Processing and Production of Clothing-based Products
		3. Processing and Production of Handicraft Items
Class C11 Medical and Health Laboratory	Buildings or premises where research and testing activities are carried out for medical and health purposes.	4. Other related Cottage Industry activities
		1. Medical Testing Laboratory
		2. Medical Research Laboratory
Class C12 Abattoir (Slaughterhouse)	Building or premise where poultry slaughter is carried out by related agencies or private agencies.	3. Other related Medical and Health Laboratory activities
		1. Abattoir (Slaughterhouse)
		2. Cold Room
		3. Abattoir (Slaughterhouse) Waste Management
		4. Management Office
		5. Other related Abattoir (Slaughterhouse) activities

(1) Class of Use	(2) Description	(3) Activity
Class C13 Building Material Storage	Building material storage sites or premises allowing sale activities.	1. Sand-based Material
		2. Materials based on Bricks
		3. Materials based on Sandstone
		4. Materials based on Wood and Iron
		5. Other related Building Material Storage activities
Class C14 Household Goods Service Centre	Sites or premises for maintenance or repair of household tools and goods including electrical and electronic appliances.	1. Repair Services for Household Appliances (Including Repair Services For Large Electrical and Electronic Appliances) <ol style="list-style-type: none"> Repair shops for electrical appliances (air conditioners, TVs, refrigerators, washing machines and other similar items); Computer repair services; Bicycle repair services; Musical instrument repair services; and Sports equipment repair services

Table 6.6: Classes of Use of Land and Building for Institution (D)

(1) Class of Use	(2) Description	(3) Activity
Class D1 Governmental or Non-governmental Organisation	Buildings or premises housing an institution, government organisation and Non-Government Organisation (NGO) or activities specifically for administration, management and accommodation by the government and NGOs.	1. Government Office
		2. Embassy and Chancery
		3. Archive
		4. Court
		5. Military Camp
		6. Non-Governmental Organization (NGO)
		7. Training Centre
		8. Other related Governmental or Non-governmental Organisation activities
Class D2 Shelter Home	Buildings or premises allocated to accommodate, care for and rehabilitate people with problems and in need of care and rehabilitation by authorities and related bodies.	1. Moral or Juvenile Rehabilitation Centre
		2. Drug Rehabilitation Centre
		3. Temporary Detention Centre
		4. Detention Centre
		5. Rehabilitation Home
		6. Homeless Transit Centre
		7. Shelter Home
		8. Other related Shelter Home activities

Table 6.7: Classes of Use of Land and Building for Community Facility (E)

(1) Class of Use	(2) Description	(3) Activity
Class E1 Health Facility	Buildings or premises housing an organisation or activities dedicated to the practice of providing medical treatment, health maintenance, and ward facilities for services to prevent and heal diseases.	1. Hospital (Government or Private)
		2. Medical Specialist Centre
		3. Clinic or Polyclinic
		4. Haemodialysis Centre
		5. Veterinary Hospital or Clinic
		6. Sanatorium
		7. Sale of Prostheses
		8. Other related Health Facility activities
Class E2 Religious Facility	Buildings or premises housing an organisation or activities specifically related to religious teachings, beliefs or values.	1. Space for Religious Activities such as Mosque, Surau, Church, Temple, Gudhwara and others
		2. Religious Association
		3. Religious Centre
		4. Related Ancillary Activities (use as Religious School, Tahfiz Centre and others)
		5. Other related Religious Facility activities
Class E3 Educational Facility	Buildings or premises housing an organisation or activities dedicated to educational facilities.	1. University
		2. College
		3. Training centre
		4. School
		5. Kindergarten or Kindergarten (KEMAS)
		6. Nursery or Childcare Centre
		7. Care Center or Student Transit Center
		8. Other related Educational Facility activities
Class E4 Civic and Cultural Facility	Sites or buildings that provide various types of facilities for community, organisational and cultural activities.	1. Community Centre or Hall
		2. Public Library
		3. Museum or Gallery
		4. Complex or Cultural Centre
		5. Integrated Community And Cultural Complex
		6. Square or Plaza
		7. Memorial
		8. Cultural Centre
		9. Theatre Centre
		10. Art Centre
		11. Handicraft Centre
		12. Other related Civic and Cultural Facility activities
Class E5 Emergency and Safety	Lands or buildings designated for the use of emergency and security services involving facilities for police, fire brigade, and neighbourhood watch.	1. Police Station
		2. Police Station or Police Beat
		3. Fire and Rescue Station
		4. Volunteer Firefighters
		5. Civil Defence or Civil Defence Related Facilities
		6. Neighbourhood Watch
		7. Other related Emergency and Safety activities

(1) Class of Use	(2) Description	(3) Activity
Class E6 Market	Premises or sites serving as a facility to the community for wholesale or retail sale of daily necessities or food.	1. Public Market
		2. Private Market
		3. Morning Market
		4. Night Market
		5. Farmers' Market
		6. Wet Market
		7. Sunday Market
		8. Frozen Cool Room
		8. Other related Market activities
Class E7 Recycling Facility	Premises or site serving as a community facility limited to the collection and separation of community used goods for recycling.	1. Paper-based Items Including Newspapers, Magazines and Books
		2. Box based Items including Tetrapak
		3. Glass-based Items
		4. Plastic-based Items
		5. Aluminium-based Items Including Cans
		6. Fabric-based Items Including Clothes and Shoes
		7. Used Cooking Oil
		8. Vehicle Battery
		9. Other related Recycling Facility activities

Table 6.8: Classes of Use of Land and Building for Cemetery (F)

(1) Class of Use	(2) Description	(3) Activity
Class F1 Cemetery	Areas or sites dedicated to burial of remains.	1. Muslim And Non-muslim Cemeteries
		2. Management Office
		3. Memorial Park
		4. Tomb
		5. Other related Cemetery activities
Class F2 Crematorium	Buildings or premises offering cremation services.	1. Cremation
		2. Management Office
		3. Other related Crematorium activities
Class F3 Funeral Home	Buildings or premises offering services to prepare and manage remains such as bathing, cleaning and cosmetology and prayer as well as last respects for the purpose of burial.	1. Funeral Parlour
		2. Management Office
		3. Other related Funeral Home activities
Class F4 Funeral Equipment	Buildings or premises offering the sale of essential items for funeral purposes such as tombstones, coffins, merchandise for funeral ceremonies and others.	1. Shop Selling Coffins
		2. Shop Selling Tombstones
		3. Shop Selling Prayer Items Related to Funeral and Ceremonies for the Deceased
		4. Management Office
		5. Other related Funeral Equipment activities
Class F5 Columbarium	Buildings or premises offering ash storage services as a cremation and memorial service.	1. Storage Of Ashes
		2. Management Office
		3. Other related Columbarium activities

Table 6.9: Classes of Use of Land and Building for Open Space (G)

(1) Class of Use	(2) Description	(3) Activity
Class G1 Sports and Recreational Facilities	Lands, buildings or management premises or specific leisure, sports and recreational activities.	1. Game Lot
		2. Playground
		3. Neighbourhood Field
		4. Football Field
		5. City Park
		6. Green Area or Buffer Zone
		7. Sports and Recreation Court Or Space
		8. Swimming Pool
		9. Club House (as activity for outdoor facilities only)
		10. Racecourse or Polo Field
		11. Paintball Field
		12. Stadium
		13. Sports Complex
		14. Extreme Sports Park
		15. Square or Plaza
		16. Pocket Park
		17. Animal Park or Mini Zoo
		18. Flora and Fauna Park
		19. Guiding Gallery
		20. Other related Sports and Recreational Facilities activities
Class G2 Golf Facilities	Sites, buildings or spaces that provide golf-based facilities.	1. Golf Course
		2. Target Field
		3. Club House
		4. Hotel
		5. Restaurants
		6. Other related Golf Facilities activities
Class G3 Commercial Recreation	Site buildings or spaces that offer various forms of recreational activities or themed entertainment for commercial and business-based purposes.	1. Theme Park (indoor or outdoor)
		2. Racing Circuit
		3. Equestrian
		4. Go-kart Circuit
		5. Remote Control Car Circuit
		6. Paintball
		7. Fishing Pond
		8. Recreational Vehicle Park (Motorhome Caravan)
		9. Other related Commercial Recreation activities
Class G4 Urban Farming	Sites, buildings or spaces that conduct agricultural activities.	1. Community Garden
		2. Aquaponics
		3. Nursery
		4. Agricultural activities Inside Building Premises using Modern Technology or Smart Technology
		5. Aquaculture activities inside or outside a building
		6. Other related Urban Farming activities

(1) Class of Use	(2) Description	(3) Activity
Class G5 Forest Reserve	Permanent forests reserved in the Kuala Lumpur area are regulated by specific agencies.	1. Forest Reserve
		2. Forest Research
		3. Recreational Forest
		4. Sanctuary
Class G6 Urban Forest	Forested areas or tree planting areas.	1. Recreational Forest
		2. Urban Park
		3. Community Forest
		4. Forest Research
		5. Sanctuary

Table 6.10: Classes of Use of Land and Building for Infrastructure and Utility (H)

(1) Class of Use	(2) Description	(3) Activity
Class H1 Utilities	Sites, buildings or spaces that provide facilities, services and installation of utilities needed to meet the needs of community life such as water supply, electricity, telecommunications, and sewage facilities.	1. Water Supply (Water Tanks, Water Treatment Plants, Water Pump Houses, Water Pipelines and Rainwater Harvesting)
		2. Sewerage Facility (Sewage Treatment Plant, Station or Pump House and Used Water Recycling Facility)
		3. Gas Supply (Gas Pipeline, Gas Tank Reserve and Gas Production Station)
		4. District Cooling System
		5. Telecommunications Facility (Towers And Telecommunication Exchange Stations as Well as Fibre Optic Cable Networks)
		6. Electricity Supply (Solar Farm, Main Input Substation, Main Distribution Substation, Electricity Substation and Transmission Line)
		7. Underground utility network routes (Cable Trenching)
		8. Other related Utility activities
Class H2 Solid Waste Management Facility	Sites, buildings or spaces that are used for facilities for the treatment and management of solid waste.	1. Incinerator or Mini Incinerator
		2. Refuse Derived Fuel Plant (RDF)
		3. Waste To Energy Plant (WTE)
		4. Transfer Station
		5. Landfill
		6. Aerobic Digester
		7. Other related Solid Waste Management Facility activity
Class H3 Drainage	Sites, buildings or spaces that used for natural or artificial drainage facilities.	1. River
		2. Canal
		3. Drainage/Reserve Drains/Drains/Main Pipeline/Drains
		4. Lake
		5. Flood Mitigation Facilities (Flood Mitigation Pump Houses, Flood Reservoirs Including Dry Ponds)
		6. SMART Tunnel
		7. Operational Management and Maintenance Office Facilities
		8. Other related Drainage activity

Table 6.11: Classes of Use of Land and Building for Transport (J)

(1) Class of Use	(2) Description	(3) Activity
Class J1 Transport Facilities	Sites, buildings or spaces that are reserved for the use of vehicle movement and public transport facilities such as public transport stations, terminals or related activities.	1. Highway or Road or Lane
		2. Rail Route
		3. Micromobility Vehicle (Such as bicycles, scooters, etc.) routes
		4. Pedestrian Walkway
		5. Public Transport Station or Terminal
		6. Public Transport Depot
		7. Bus Stop or taxi or e-hailing stand
		8. Ventilation or Escape Shaft
		9. Plaza Toll and Ancillary Facility related
		10. Electric Vehicle Charging Station
		11. Other related Transport Facilities activities
Class J2 Park and Ride	Sites, buildings or spaces that provide for the use of public transport users to park their private vehicles to enable them to use the public transport network. Park and ride is usually provided by the government to support the objective of using public transport.	1. Parking for Cars
		2. Parking for Motorcycles
		3. Parking for Micromobility vehicles (such as Bicycles and Scooters)
		4. Electric Vehicle Charging Compartment
		5. Other related Park and Ride activities
Class J3 Parking Lot	Sites, buildings or spaces that provided for parking. Parking facilities include indoor or outdoor areas on private (privately operated) land, on-street parking, parking lots or parking areas and also areas inside or outside multi-storey structures. Usually the parking facility is administered by a management body or privately.	1. Parking for Cars, Motorcycles and Micromobility vehicles (such as Bicycles and Scooters)
		2. Parking for Buses and Lorry
		3. Parking for Heavy Vehicles
		4. Electric Vehicle Charging Compartment
		5. Other related Park and Ride activities
Class J4 Air Transport Facilities	An area or platform on the ground or building for the landing and take-off of air transport.	1. Helipad or Drone Flying
		2. Flight Runway
		3. Flight Training Centre
		4. Other related Air Transport Facilities activities
